Young people from alternative care from Croatia participated in the creation of the leaflet.  
For more information, read: EU Child Guarantee, adopted by the European Commission in 2021.

The leaflet was created through collaboration on the project 'Reaching-in: promoting children's participation in inclusive public decision making', which is carried out by the international organization Eurochild and which lasts from 2020 to 2022. The creation of the leaflet was financed by Eurochild for the needs of the project.

PRESS RELEASE

## Children and young people lead radical reform of care services in Wales

A declaration committing to the radical reform of care services for children and young people has been signed by the First Minister Mark Drakeford today.

First published: 10 May 2023

Last updated: 10 May 2023

The declaration, developed jointly by care-experienced children and young people and ministers, outlines the Welsh Government's commitment to putting the voice of children and young people at the heart of the transformation of children's services.

It commits the Welsh Government to deliver a wide range of changes to the current care system, to enable a 'children first' approach in everything we do and to make sure that everything is done to help children and families stay together.

The declaration comes as the Welsh Government is radically transforming children's services in Wales.

It is committed to reducing the number of children and young people entering care but for those children who are in care, it wants them to remain close to home so they can continue to be part of their community.
